CONTENTS VOLUME 79 NOVEMBER 1985

page 1 CZABAN, B. B. and FORER, A. The kinetic polarities of spindle microtubules *in vivo*, in crane-fly spermatocytes. I. Kinetochore microtubules that re-form after treatment with colcemid

39 CZABAN, B. B. and FORER, A. The kinetic polarities of spindle microtubules *in vivo*, in crane-fly spermatocytes. II. Kinetochore microtubules in non-treated spindles

67 GUIDRY, C. and GRINNELL, F. Studies on the mechanism of hydrated collagen gel reorganization by human skin fibroblasts

83 HARRIS, H. Suppression of malignancy in hybrid cells: the mechanism

95 CROSTI, N., BAJER, J., SERRA, A., RIGO, A., SCARPA, M. and VIGLINO, P. Coordinate expression of Mn-containing superoxide dismutase and Cu,Zn-containing superoxide dismutase in human fibroblasts with trisomy 21

105 HARRIS, H. and ZALIK, S. E. Studies on the endogenous galactose-binding lectin during early development of the embryo of *Xenopus laevis*

119 APLIN, J. D., CAMPBELL, S. and ALLEN, T. D. The extracellular matrix of human amniotic epithelium: ultrastructure, composition and deposition

137 DEAN, M. F., MCNAMARA, A. and JENNE, B. M. Direct transfer of β-glucuronidase from mouse macrophages to other types of cell

151 EUROPE FINNER, G. N., TILLINGHAST, H. S. JR, MCROBBIE, S. J. and NEWELL, P. C. TMB-8 inhibits respiration and cyclic GMP formation in *Dictyostelium discoideum*

161 TAMM, S. L. and TAMM, S. Visualization of changes in ciliary tip configuration caused by sliding displacement of microtubules in macrocilia of the ctenophore *Beröe*

181 FORGE, A. Cholesterol distribution in cells of the stria vascularis of the mammalian cochlea and some effects of ototoxic diuretics

199 GAMBINO, J., ROSS, M. J., WEATHERBEE, J. A., GAVIN, R. H. and ECKHARDT, R. A. *Xenopus* marginal band disassembly by calcium-activated cytoplasmic factors

217 SOBOTA, A. Subplasmalemmal calcium-binding microregions in *Acanthamoeba*

237 YANAGI, A. and HIWATASHI, K. Intracellular positional control of survival or degeneration of nuclei during conjugation in *Paramecium caudatum*

247 ZIMMERMAN, S., ZIMMERMAN, A. M., FULLERTON, G. D., LUDUENA, R. F. and CAMERON, I. L. Water ordering during the cell cycle: nuclear magnetic resonance studies of the sea-urchin egg

259 SATO, S. Ultrastructural localization of nucleolar material by a simple silver staining technique devised for plant cells

271 DIEHL-SEIFERT, B., KURELEC, B., ZAHN, R. K., DORN, A., JERIČEVIC, B., UHLENBRUCK, G. and MÜLLER, W. E. G. Attachment of sponge cells to collagen substrata: effect of a collagen assembly factor

287 WARBURTON, M. J., FERNS, S. A., HUGHES, C. M. and RUDLAND, P. S. Characterization of rat mammary cell types in primary culture: lectins and antisera to basement membrane and intermediate filament proteins as indicators of cellular heterogeneity

305 ANDERSON, S. and EDE, D. A. The behaviour *in vitro* of epidermal cells from normal and *pupoid foetus* mutant mouse embryos

317 GAFFNEY, J., WEST, D., ARNOLD, F., SATTAR, A. and KUMAR, S. Differences in the uptake of modified low density lipoproteins by tissue cultured endothelial cells

327 HELLIO, R. and RYTER, A. Role of particle electrostatic charge in adhesion and ingestion in *Dictyostelium discoideum* amoeboid cells
